Overview

Insurance plans for private individuals and companies

Groupe Mutuel brings together several independent companies active in health and accident insurance, as well as life, patrimony and corporate insurance (daily allowance, accident insurance, occupational benefits and supplemental health insurance).

It manages six health insurance companies and three private insurers that are members of the group. Furthermore, it overlooks the administrative management of two pension funds and one fund active in daily allowance insurance under LAMal/KVG.

A challenge for now and the future

By placing its insured members at the forefront of its considerations and constantly seeking to provide the best service possible, Groupe Mutuel offers innovative solutions and anticipates the needs of tomorrow.

As a result, it aims to facilitate the transactions with its customers, thanks in particular to its GMnet portal and free mobile application GMapp, which provide insured members with fast and secure online access to all information related to their health insurance contracts.

Through a structure entirely dedicated to innovation, it also develops technology projects in the health, insurance and financial sectors. Groupe Mutuel therefore confirms its position as a leader in this field and is keen to meet the challenges brought about by digital transformation.
