

Supplemental hospitalisation insurance

Customised comfort and security

- With supplemental hospitalisation insurance, you may choose your level of comfort and are free to decide on your specialist and hospital facility.

In Switzerland, compulsory health insurance covers hospitalisation in a general ward at the hospital rate of your canton of residence. If you choose to stay in a hospital outside your canton, you will often be required to pay for part of the costs.

You will also have to pay significant costs if you wish to stay in a clinic or be treated in a semi-private or private ward by the specialist of your choice.

Our supplemental hospitalisation insurance allows you to choose between four levels of coverage to obtain full reimbursement of your hospitalisation expenses in case of illness, accident or maternity.

» Your advantages

- Insurance coverage in case of illness, accident or maternity*
- Coverage of rate differences in the event of hospitalisation outside your canton
- Free choice of doctor in hospital (for levels 2, 3 and 4)
- Comfort of a one-bed or two-bed room (for levels 2, 3 and 4)
- A daily amount will be allocated in case of hospitalisation abroad

* A non-availability period of 12 months applies to maternity.
