

Occupational Benefits

Services that make a difference

- › At the heart of the Swiss three-pillar system, occupational benefits provide your employees with the necessary financial resources in case of disability, death and retirement. The criteria for the selection of a pension plan are based on a meticulous assessment of your needs, taking into account existing resources.

As specialists, we offer a wide range of solutions, from **minimum coverage** as provided for by law to **optimal customised protection**.

Solutions customised to your needs

With the support of our advisers, we define the solution that best suits your needs. Therefore, your occupational benefits will be coherent with your company's strategy and your HR policies.

A quality service

Compulsory LPP benefits are identical for all insured persons, but the practicalities sometimes vary. Since we manage your contract on a personalised basis, we pay special attention to these small details that make all the difference, at no extra cost.

» **Flexible payment terms and conditions**

You choose the terms and conditions of payment that suit you, at no extra cost and without any debt interest, within the agreed deadlines.

» **Online management of your retirement savings**

Through a highly secured Extranet connection, you may access permanently the retirement savings data for all of your employees. You get to carry out the necessary changes and can immediately access the pension data that you need.

» **An appropriate investment policy**

The favourable evolution of your retirement savings is at the heart of our concerns. Our specialists coordinate investments so that the management of funds combines return and security. Further-more, solid reserves are constituted when market conditions are favourable in order to reduce disruption in case of market turmoil.

» **Flexible coverage for optimal security**

Minimum LPP/BVG benefits offer basic protection. Optimal security is obtained by extending the coverage for savings, disability or death. Groupe Mutuel offers solutions which enhance the mini-mum benefits, taking into account your HR policy and available resources.
