

Global flex

Flexible insurance

Do you want to

- **Have a choice of ward**, whether general, semi-private or private each time you are hospitalised, depending on the type of treatment you are undergoing?
- **Freely choose your specialist** when you are hospitalised, irrespective of which canton or hospital the specialist is based in?
- **Be free to choose your doctor**, including for outpatient treatment?
- **Benefit from an extended guarantee** for alternative treatments not covered by the compulsory health insurance?
- **Benefit from preventive health benefits** such as fitness classes and check-ups, for instance.

Our solution

"Global flex" was specially devised to meet these requirements. This supplemental insurance plan allows you to choose the most suitably adapted ward in line with your needs each time you are hospitalised, and in this way offers optimal flexibility.

Choose freely

"Global flex" comprises two modules:

- 1. Hospiflex basic module:** customised solutions in the event of hospitalisation.
- 2. Careflex supplemental module:** unlimited coverage for various outpatient treatment benefits and preventive health.

Optional combinations with Global flex

Hospiflex basic module

Thanks to **Hospiflex**, you may choose the level of comfort you want (general, private or semi-private ward) in the event of hospitalisation.

When undergoing a major operation, you will most certainly want to benefit from the comfort of a private room and to be able to freely choose a specialist, while for a minor operation, you may prefer a more economical solution.

You can therefore set your budget in full knowledge of the costs of your treatment, as outlined below:

General ward 	Semi-private ward 	Private ward 
Free choice of hospital throughout Switzerland		
without any contribution on your part	your contribution: CHF 400/day, max. CHF 4,000/calendar year free choice of a specialist	your contribution: CHF 600/day, max. CHF 5,000/calendar year free choice of a specialist

Careflex supplemental module

A healthy and balanced diet combined with physical activity can help keep many diseases at bay. Our **Careflex** supplemental module supports you in your efforts by reimbursing many preventive benefits.

For instance, we give you the option of carrying out a health check, receiving a second medical opinion in the event of hospitalisation or looking after your health (back school, fitness classes).

Furthermore, the **Careflex** supplemental module gives you access to unlimited benefits not covered by compulsory health insurance, such as alternative medicine, optional drugs, transport costs, spa or convalescence cures. In addition, you can freely choose your doctor throughout Switzerland.
