KidsProtect

An additional strength at your side

- » The parents of a child who is diagnosed with cancer are never prepared for the many upheavals ahead. Beyond the emotional shock, a severe strain is also placed on the family budget in a context where Swiss law only provides for limited support.

In Switzerland, the law provides parents with limited parental leave to reorganise family life.

In this difficult context, it is necessary to:

- redefine one's timetable, by reducing or stopping work, in order to face the constraints of a treatment which may go on for a long time,
- provide for the care of siblings,
- bear the costs of meals taken by parents outside of the home, as well as the costs of possible travel required for the child's treatment,
- plan for time and privileged moments with the family.

All of this may well place the family in a difficult financial situation.

Our solution for supporting families

To support families in this situation, Groupe Mutuel Assurances GMA SA created KidsProtect. **This coverage offers supplemental income in the form of a monthly benefit of CHF 4,000,** paid to the parents from the beginning of the treatment.

This benefit can be used at your discretion to cope with the constraints of the new situation.

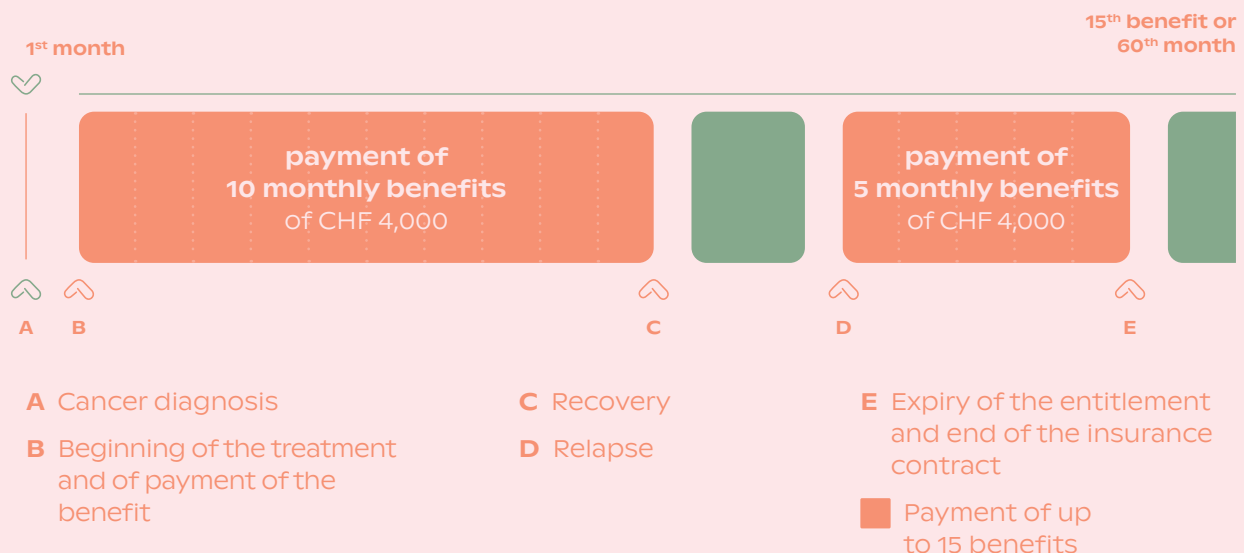

KidsProtect benefits

- A monthly benefit of CHF 4,000, paid for up to 15 months, within a timeframe of 60 months.
- The benefit can be used at your discretion, without having to justify its use.

➤ Example of the payment of the benefit

A maximum of 15 benefits, paid within 60 months, according to how the treatment progresses.

The special terms and conditions of insurance shall apply.
